

Exercise 1

Task 1

Functional:

As an admin I want to ban people from the forum, so that they stop spamming posts.

As a user, I want to sort/filter/search through the posts and merchandise so that I can find what I want quicker

As a user, I want to be able to delete and edit my posts, if by chance I'm not happy with it anymore

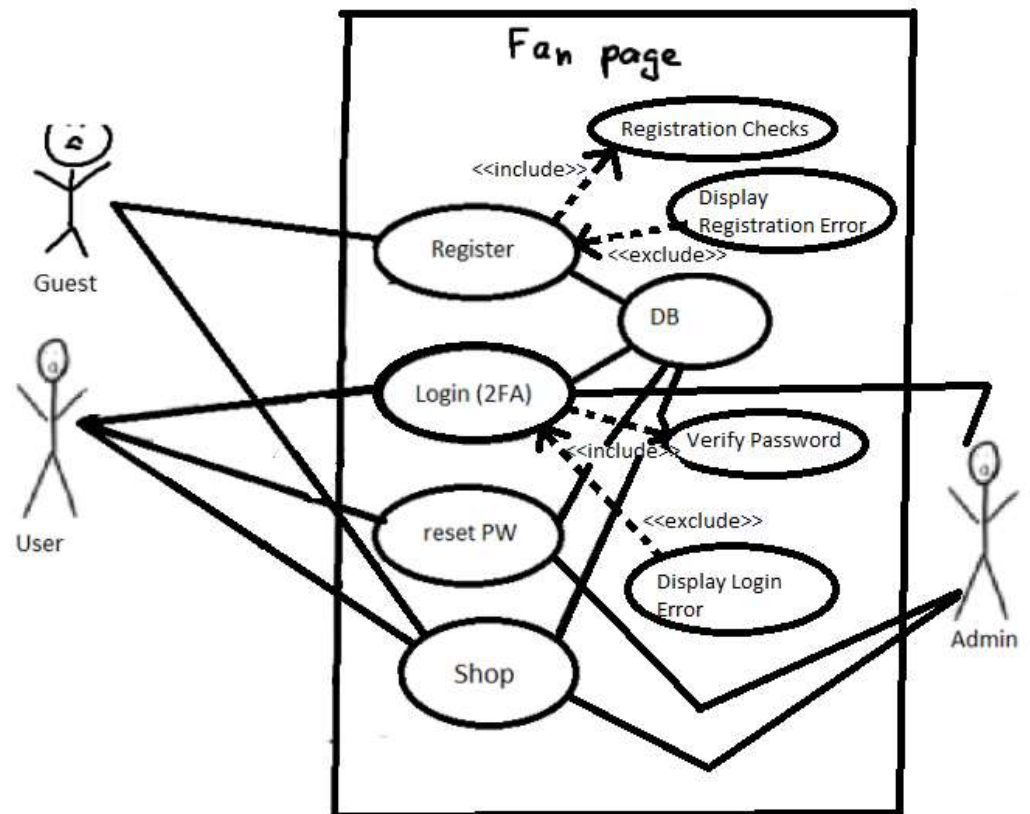

Non-Functional:

As a user I want to be able to see my uploaded posts for sure on the frontpage after a certain time (< 1min).

As a user I want to be able to login fast (< 1s).

As a user I want my username to be unique and only available to me.

Task 2

Task 3

Register: This use case allows a user to be authenticated by the authorization service.

Password Reset: This use case is the operation of resetting a lost or forgotten password, with a new one by the use of some alternative means of authentication. Usually by sending an email with a reset link to the email address that is registered in the users account.

Login: This use case can only occur after registration and allows the user to quickly login into the system without having to register every time they want to access the webpage

Exercise 2/4 (Updated)

Task 1

Post	
<ul style="list-style-type: none">• CreateList• DeleteList• UpdateList• Upvote• Downvote	<ul style="list-style-type: none">• User• Comment

Edit card #5✕↑

Comment	
<ul style="list-style-type: none">• UpdateComment• DeleteComment	<ul style="list-style-type: none">• Post• User

Edit card #2✕↑↓

Shopitem	
<ul style="list-style-type: none">• Display price• Display description	<ul style="list-style-type: none">• Shop

Edit card #3✕↑↓

User	
<ul style="list-style-type: none"> • Register • Login • Logout 	<ul style="list-style-type: none"> • Post • Comment • Profile • Shop

Edit card #4

Profile	
<ul style="list-style-type: none"> • ChangePassword • Show userinformation 	<ul style="list-style-type: none"> • User

Edit card #5

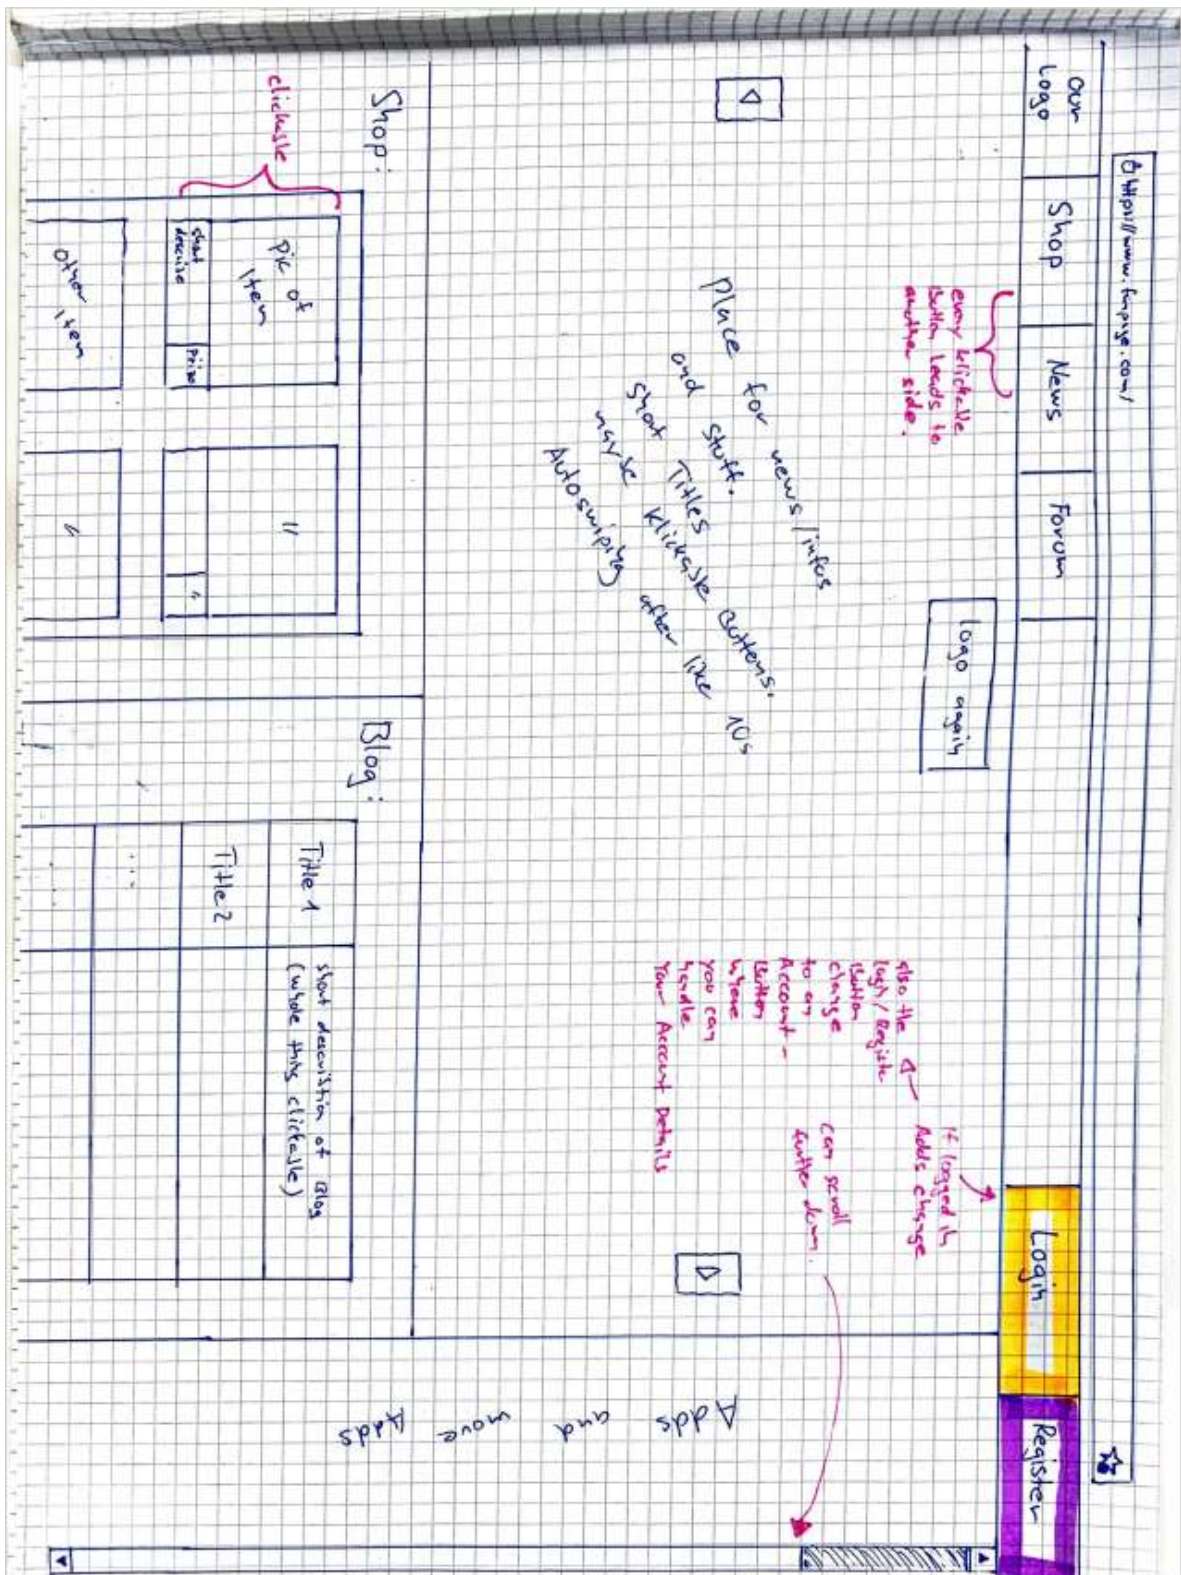

Shop	
<ul style="list-style-type: none"> • Display items (readShopItemLIst) • Buy item • Process payment 	<ul style="list-style-type: none"> • Shopitem • User

Edit card #6

Task 2

additional mockups for the login and registration feature:

Hand-drawn mockup of a website layout on grid paper.

Header:

- URL: <http://www.fanpage.com/>
- Navigation: Our logo, Shop, News, Forum
- Logo again

Annotations:

- every clickable button leads to another side.
- Place for news/links and stuff.
- Short Titles
- Clickable buttons
- Autoswiping after like 10s

Shop:

pic of item	Short description	Price
Other item		

Blog:

Title 1	Short description of blog (where this clickable)
Title 2	

Footer:

Adds and move Adds

Login/Registration Form:

also the login/registration change to my Account button where you can handle your Account details

Username:

Password:

Buttons: Login, Register

This shows the login feature. We stay on the homepage, since we only have to fill in username and pw in a dropdown list.

For the Registration tho we lead the user to a separate page (shown in the link) Here the side is only for registration purposes.

<https://www.facebook.com/register>

Register

- create your account

Firstname: *

password: *

address

e-Mail *

phone-number

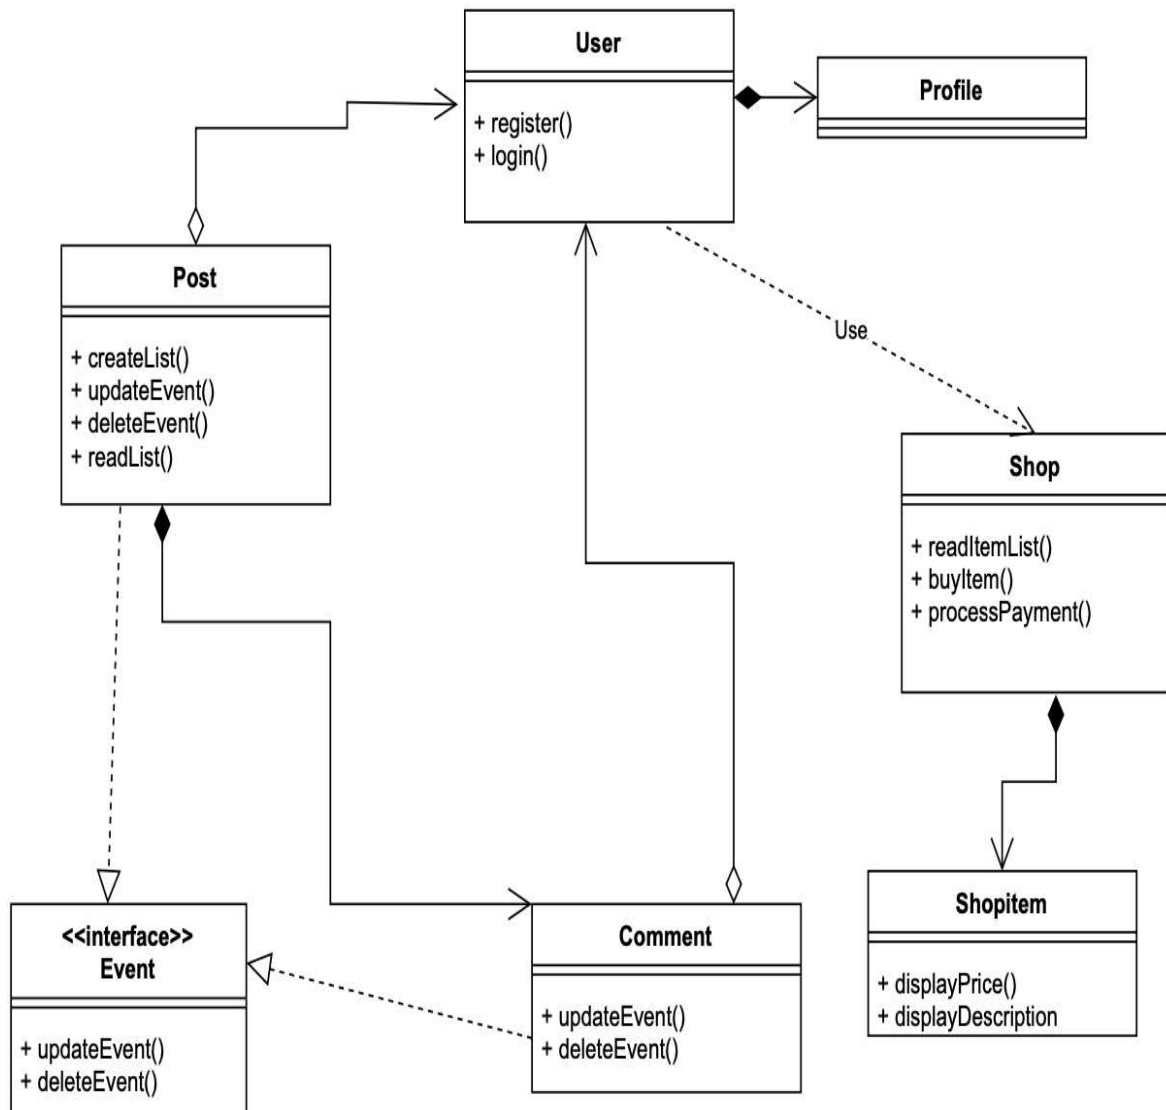

PLZ:

Username: *

Register now

* optional Fields.

Exercise 4 (For CRC cards look at exercise 2)

Exercise 5 (Task 1 + 2 got updated)

Task 3:
