Exercise 1

Task 1

Functional:
As an admin I want to ban people from the forum, so that they stop spamming posts.

As a user, I want to sort/filter/search through the posts and merchandise so that I can find what I want quicker

As a user, I want to be able to delete and edit my posts, if by chance I'm not happy with it anymore
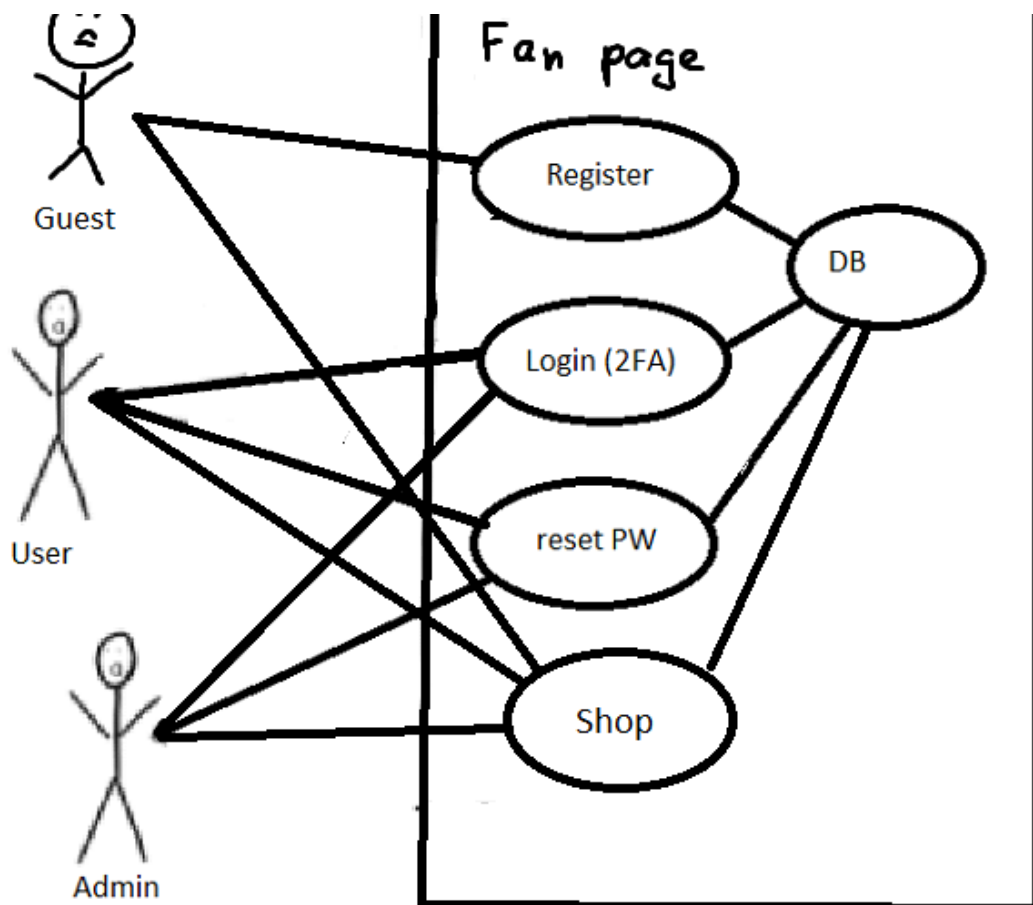

Non-Functional:
As a user I want to be able to see my uploaded posts for sure on the frontpage after a certain time (< 1min).

As a user I want to be able to login fast (< 1s).

As a user I want my username to be unique and only available to me.
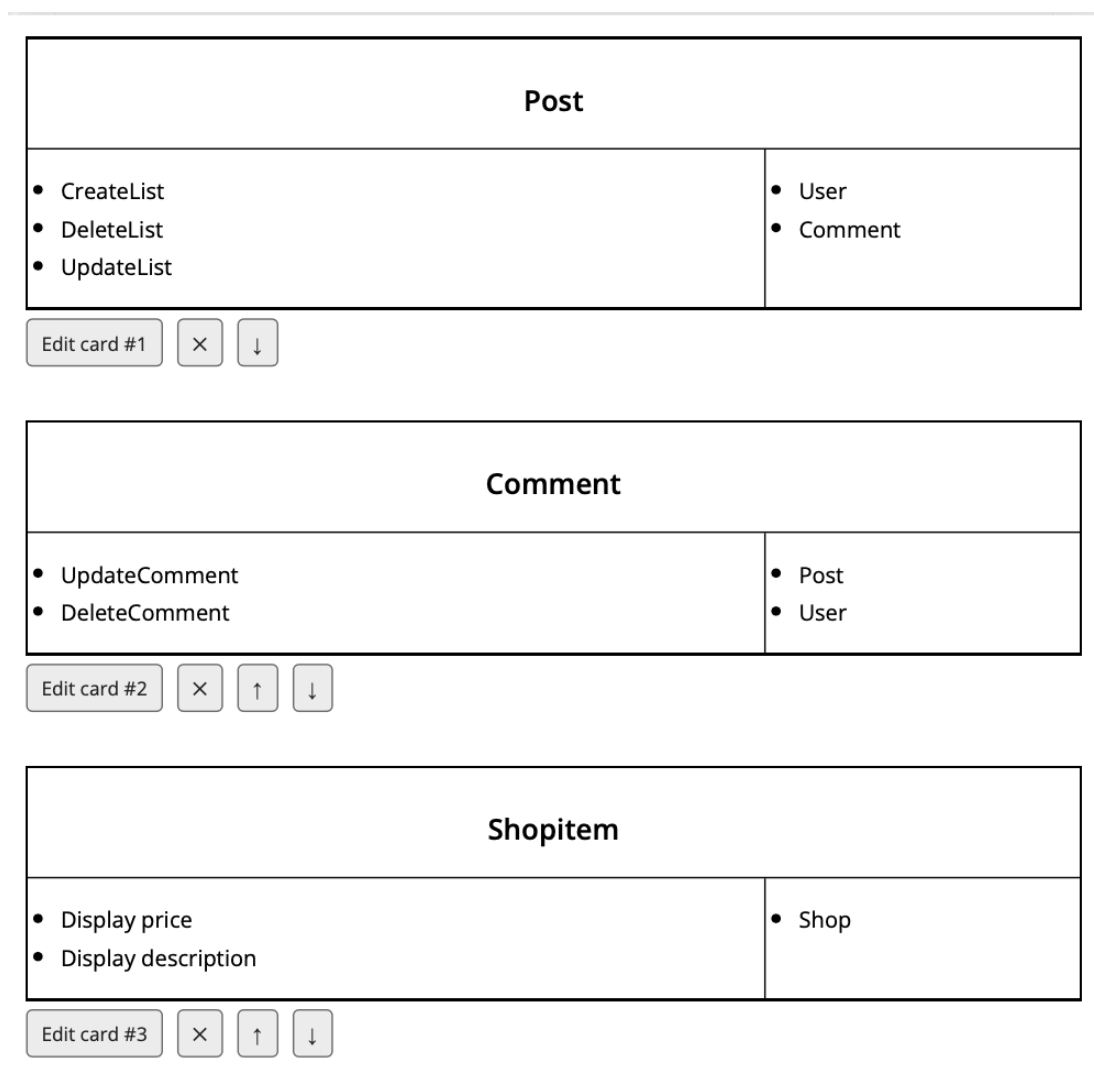

Task 2

Task 3

Register: This use case allows a user to be authenticated by the authorization service.

Password Reset: This use case is the operation of resetting a lost or forgotten password, with a new one by the use of some alternative means of authentication. Usually by sending an email with a reset link to the email address that is registered in the users account.

Login: This use case can only occur after registration and allows the user to quickly login into the system without having to register every time they want to access the webpage

Exercise 2/4 (Updated)

Task 1

Post	
• CreateList • DeleteList • UpdateList	• User • Comment

Edit card #1   ✕   ↓

Comment	
• UpdateComment • DeleteComment	• Post • User

Edit card #2   ✕   ↑   ↓

Shopitem	
• Display price • Display description	• Shop

Edit card #3   ✕   ↑   ↓

User

- Register
- Login
- Logout

- Post
- Comment
- Profile
- Shop

Edit card #4   ×   ↑   ↓

Profile

- ChangePassword
- Show userinformation
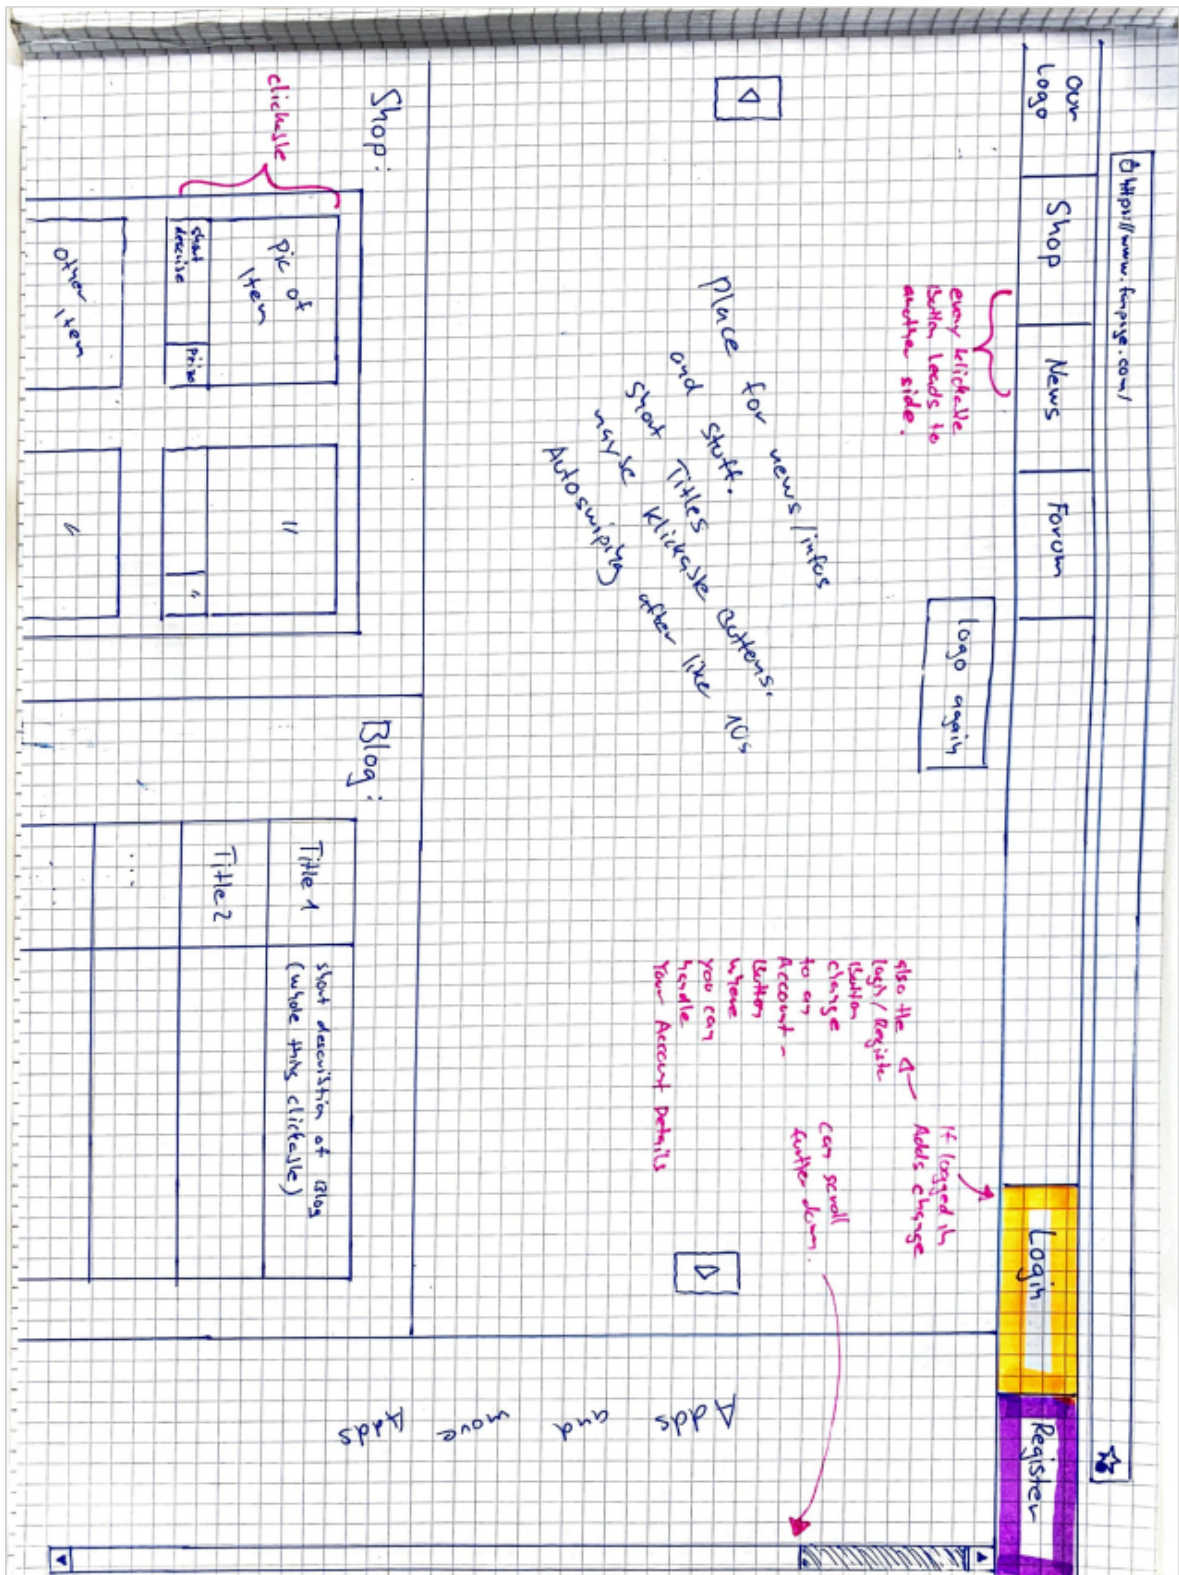

- User

Edit card #5   ×   ↑   ↓

Shop

- Display items (readShopItemList)
- Buy item
- Process payment

- Shopitem
- User

Edit card #6   ×   ↑

Task 2

Our Logo

| Shop | News | Forum |

http://www.fanpage.com/

clickable

every klickable butto leads to another side.

Shop:

pic of Item

short describe | Price

other Item

logo again

Place for news/infos and stuff.
Short Titles maybe klickable buttons.
Autoswiping after like 10s

Blog:

Title 1 — short describtion of Blog (whole this clickable)

Title 2

also the ← login/Register button change to an Account — written where you can handle Your Account Details

If logged in Adds change

can scroll further down

Login

Register

Adds and more Adds
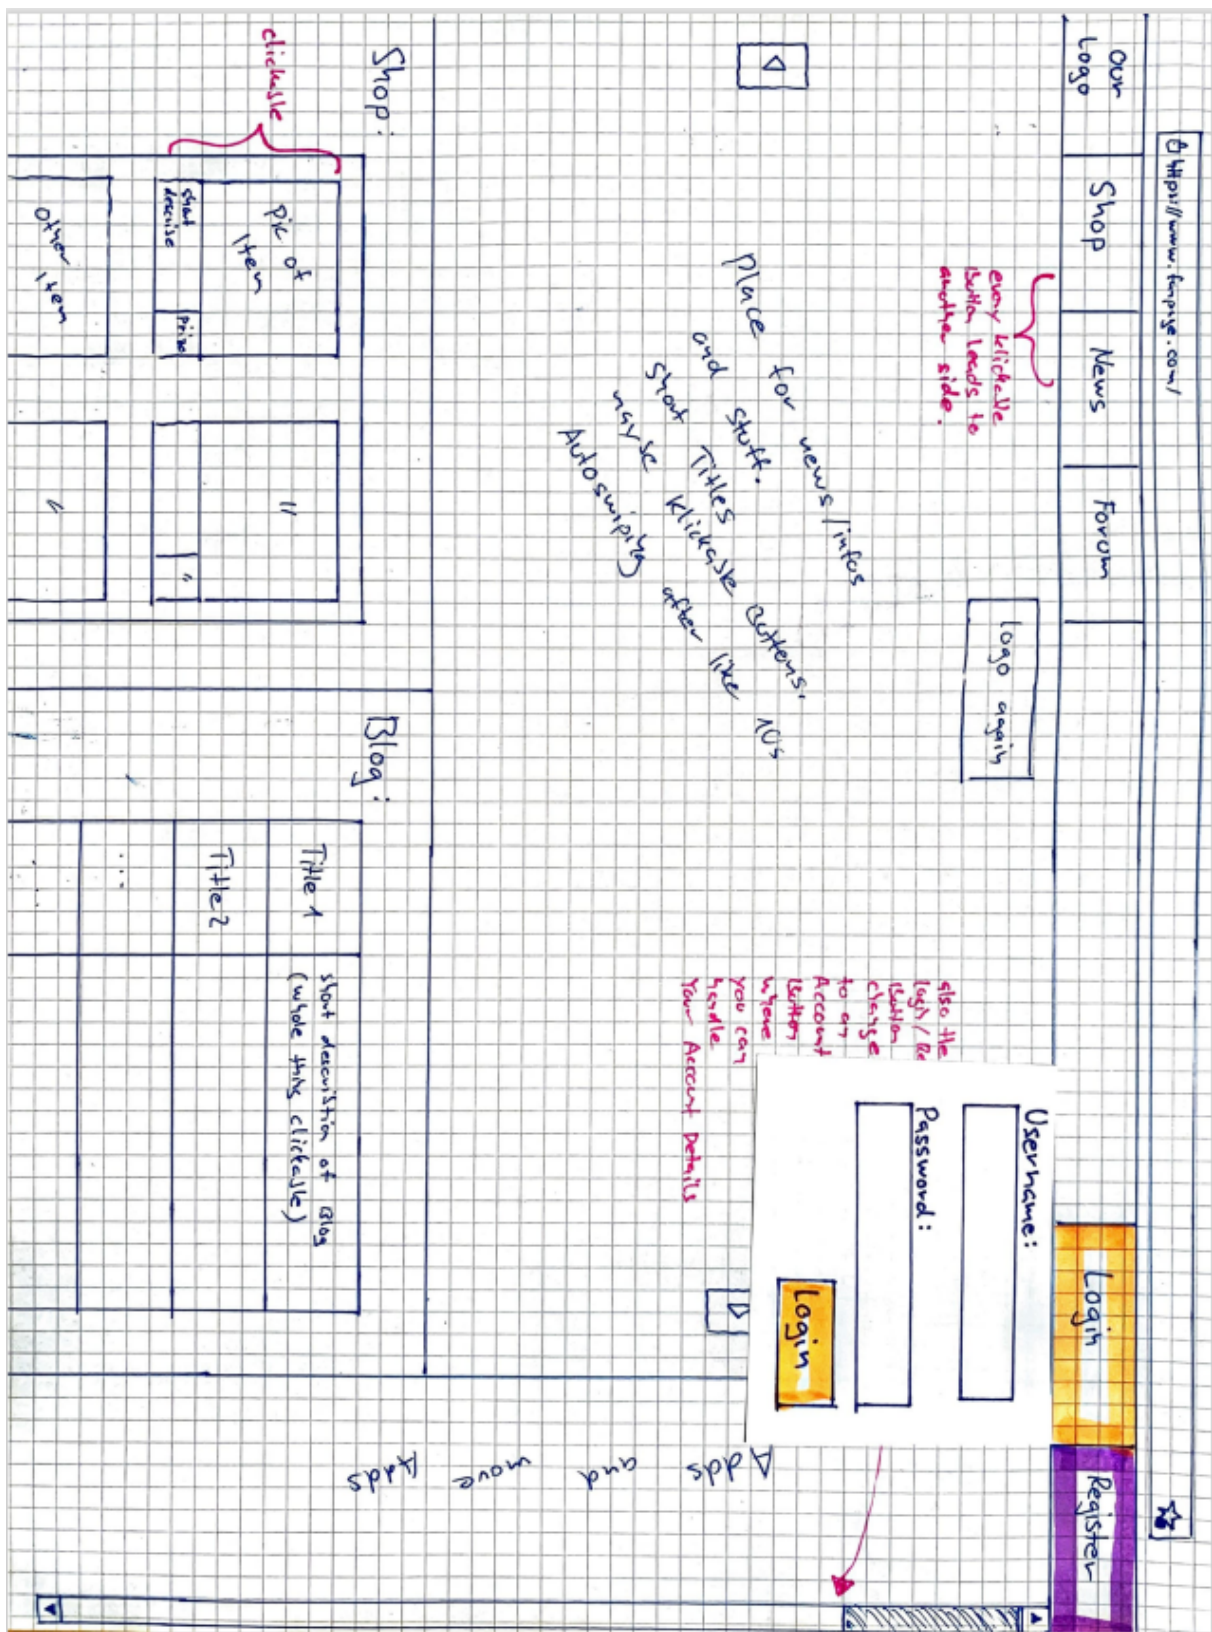

additional mockups for the login and registration feature:

This shows the login feature. We stay on the homepage, since we only have to fill in username and pw in a dropdown list.

For the Registration tho we lead the user to a separate page (shown in the link) Here the side is only for registration purposes.

Exercise 4 (For CRC cards look at exercise 2)
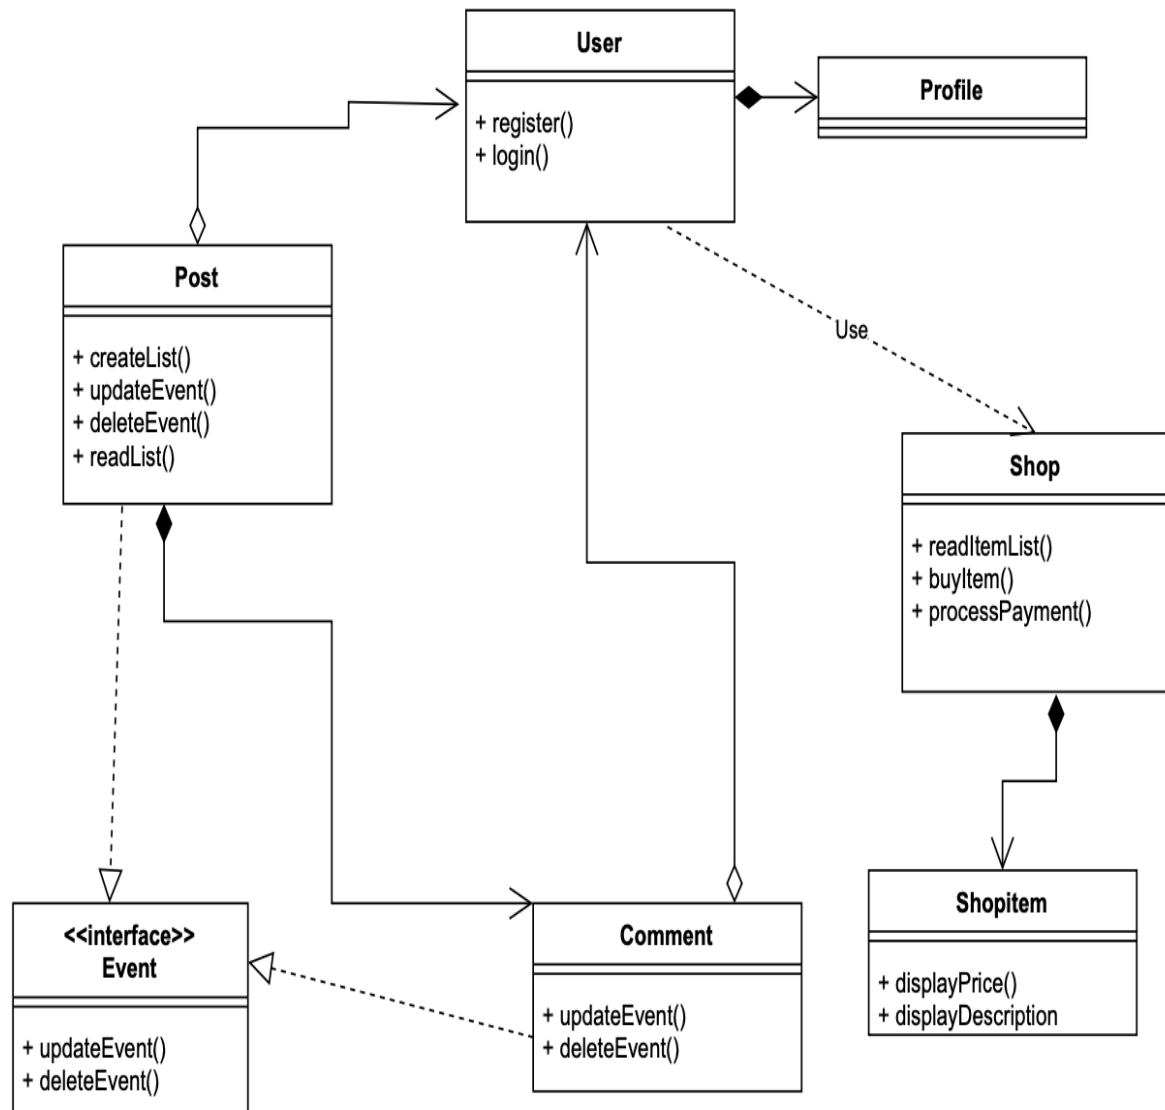

Exercise 5 (Task 1 + 2 got updated)

Task 3:
